A. PROGRAM DESCRIPTION

The Bureau of Counterterrorism (CT) of the U.S. Department of State announces an open competition for organizations to submit applications to host a one-week border security exercise in Coastal West Africa (CWA).

The central Sahel is a global epicenter of terrorism. Countries in the region face an acute threat from violent extremist organizations (VEOs) affiliated with al-Qaida and ISIS operating in the central Sahel. Over the past three years, these VEOs have expanded from the central Sahel into the northern border regions of Coastal West Africa (CWA) littoral states (predominately Benin, Togo, Côte d'Ivoire, and Ghana; Benin and Togo face the brunt of VEO attacks). The VEO threat in CWA is increasing. According to Armed Conflict Location and Event Data Project (ACLED) data, 2023 recorded the highest number of VEO events in CWA ever (219), peaking in Q4 (65), thus far the highest quarterly sum ever experienced in the region.

VEOs exploit the region's porous borders, inadequate screening, and poor border management to evade security forces and facilitate attacks, movement of people and material, and financing. The VEOs exploit inter-communal and inter-ethnic tensions, including grievances against local security forces, to recruit new members and facilitate their activities and goals.

The VEO threat is inherently transnational and cross-border. CWA countries need to work unilaterally to counter the VEO threat within their own borders while, at the same time, utilizing joint, bilateral, and multilateral approaches. However, differing levels of capacity and capability, a lack of interoperability, language differences, and political challenges, among other difficulties, hinder bilateral and multilateral cooperation between and among CWA countries.

This program aims to encourage regional partners to increase bilateral and multilateral collaboration on border security issues to disrupt, degrade, investigate, prosecute, and respond to cross-border terrorist activity. Specifically, CT wishes to bring together CT-funded border security units from Cote d'Ivoire, Togo, and Benin to participate in a one-week border security exercise which consists of tactical and operational competitions, lectures, and relationship-

building exercises. This border security exercise will test the capabilities of the partner units on their ability to respond to border security threats and coordinate on cross-border challenges. It will also encourage the participants to share new perspectives, strengthen coordination, and enhance cross-border cooperation.

Please follow all instructions below.

Priority Country or Region: Cote d'Ivoire, Togo, Benin

Program Objective(s):

- By 2025, CT-funded Gendarmerie and Police units will have gained the experience coordinating and responding to cross-border threats between participating units of the exercise.

Participants and Audiences:

8. Unique Entity Identifier and System for Award Management (SAM.gov) Required Registrations

All prime organizations, whether based in the United States or in another country, must have an active registration in SAM.gov and a Unique Entity Identifier (UEI) assigned upon registration to SAM.gov) **before submitting an application**. If an organization is not present and active in SAM.gov, it cannot receive funding in MyGrants; CT may **not** review applications from or make awards to applicants that have not completed all applicable UEI and SAM.gov requirements. A UEI is one of the data elements mandated by Public Law 109-282, the Federal Funding Accountability and Transparency Act (FFATA), for all Federal awards.

Note: As of April 2022, a DUNS number is no longer required for federal assistance applications.

The 2 CFR 200 requires that sub-grantees obtain a UEI number. Please note the UEI for sub-grantees is not required at the time of application but will be required before the award is processed and/or directed to a sub-grantee.

Note: The process of obtaining a SAM.gov registration may take anywhere from 4-8 weeks. Please begin your registration as early as possible.

- Organizations **based in the United States** or that pay employees within the United States will need an Employer Identification Number (EIN) from the Internal Revenue Service (IRS) and a Commercial and Government Entity (CAGE) code prior to registering in SAM.gov.
- Organizations **based outside of the United States** and that do not pay employees within the United States do not need an EIN from the IRS. **Please note that as of December 2022, organizations based outside of the United States that do not intend to apply for**

U.S. Department of Defense (DoD) awards are no longer required to have a NATO CAGE (NCAGE) code to apply for non-DoD foreign assistance funding opportunities. If an applicant organization is mid-registration and wishes to remove an NCAGE code from their sam.gov registration, the applicant should submit a help desk ticket ([“incident”](#)) with the Federal Service Desk (FSD) online at www.fsd.gov using the following language: “I do not intend to seek financial assistance from the Department of Defense. I do not wish to obtain a CAGE or NCAGE code. I understand that I will need to submit my registration after this incident is resolved in order to have my registration activated.”

All prime organizations must also continue to maintain active SAM.gov registration with current information at all times during which they have an active Federal award or application under consideration by a Federal award agency, regardless of whether the application/award is posted on MyGrants or SAM.gov. SAM.gov requires all entities to renew their registration once a year in order to maintain an active registration status in SAM. It is the responsibility of the applicant to ensure it has an active registration in SAM.gov and to maintain that active registration. Whenever an organization registers, reactivates, or modifies information on SAM.gov, it must notify the grantor POC. If an applicant has not fully complied with the requirements at the time of application, the applicant may be deemed technically ineligible to receive an award and use that determination as a basis for making an award to another applicant.

Note: SAM.gov is not the same as MyGrants. These systems are separate and unique but integrate with one another. MyGrants is the system for applying to federal assistance, countersigning awards, and managing post-award documentation within the Department of State, while Grants.gov is a website where federal agencies post discretionary funding opportunities for grantees. **It is free of charge to register in both systems, but the registration processes are different.** Applicants **must** register in SAM.gov prior to registering for MyGrants, as the UEI Number acquired upon SAM.gov registration is required to register for MyGrants. *Information is included on the SAM.gov website to help international registrations, including [“Quick Start Guide for International Registrations”](#) and [“Helpful Hints.”](#) Navigate to www.SAM.gov, click [“HELP”](#) in the top navigation bar, then click, [“Explore”](#) and [“New to SAM.gov?”](#) for general information. Please note, guidance on SAM.gov and the guidance on GSA’s website about requirement for registering in SAM.gov is subject to change. Applicants should review the website for the most up-to-date guidance.*

*To create a MyGrants user account, go to <https://mygrants.servicenowservices.com/mygrants>, click the [“Create an Account”](#) link, and click the [“Create a MyGrants Applicant/Grantee Account”](#) button. Applicants will then receive an email providing instructions to set up multi-factor authentication. Award recipients **must** use multi-factor authentication to log into MyGrants.*

Exemptions

An exemption from these requirements may be permitted on a case-by-case basis if:

- An applicant’s identity must be protected due to potential endangerment of their mission, their organization’s status, their employees, or individuals being served by the applicant.
- For an applicant, if the Federal awarding agency makes a determination that there are exigent circumstances that prohibit the applicant from receiving a UEI and completing SAM registration prior to receiving a Federal award. In these instances, Federal awarding agencies must require the recipient to obtain a UEI and complete SAM registration within 30 days of the Federal award date.

Organizations requesting exemption from UEI or SAM.gov requirements must email the point of contact listed in the Request for Statements of Interest and Capacity (RSOIC) at least **two weeks prior to the deadline in the NOFO providing a justification of their request**. Approval for a SAM.gov exemption must come from the warranted Grants Officer before the application can be deemed eligible for review.

Note: As of December 2022, organizations based outside of the United States that do not intend to apply for U.S. Department of Defense (DoD) awards are no longer required to have a NATO CAGE (NCAGE) code to apply for non-DoD foreign assistance funding opportunities.

The Department of State determines on a case-by-case basis what constitutes assistance to a government; the general principles listed below apply.

Assistance to the government includes:

- All branches of government (executive, legislative, judicial) at all levels (national, regional, local);
- Public schools, universities, hospitals, and state-owned enterprises, as well as government employees;
- Cash, training, equipment, services, or other assistance provided directly to the government, assistance provided to an NGO or other implementer for the benefit of the government, and assistance to government employees.

NEA: Iran, Syria

SCA: Afghanistan

WHA: Cuba, Curacao, Nicaragua, Sint Maarten

Additional requirements may be included depending on the content of the program.

3. Reporting

Reporting Requirements: Recipients will be required to submit financial reports and program reports. At a minimum, written quarterly financial and program reports should be sent to CT’s reporting mailbox at ctprogramsreporting@state.gov, the GOR, and uploaded to MyGrants. The grant recipient agrees to use CT’s program reporting template, describing key activities

undertaken during the reporting period towards accomplishment of the state objectives. The award document will specify how often these reports must be submitted.

Recipients will be required to develop and submit a performance monitoring plan detailing how progress towards program objectives will be measured. The grant recipient agrees to use CT's performance monitoring plan template to indicate the indicator(s) they will use to evaluate program objectives, the target value, and how data will be collected (data source, frequency, and person responsible) to be reported out in quarterly performance reports. A "how to" guide may also be made available upon request.

NOTE: Delays in reporting may result in delays of payment approvals and failure to provide required reports may jeopardize the recipients' ability to receive future U.S. government funds. BUREAU reserves the right to request any additional programmatic and/or financial project information during the award period of performance.

It is the Department of State policy that English is the official language of all award documents. If reports or any other supporting documents are provided in both English and a foreign language, it must be stated in each version that the English language version is the controlling version. U.S. dollar is the controlling currency. Financial reports must be submitted in U.S. dollars.

Applicants should be aware of the post award reporting requirements reflected in 2 CFR 200 Appendix XII—Award Term and Condition for Recipient Integrity and Performance Matters.

Foreign Assistance Data Review: As required by Congress, the Department of State must make progress in its efforts to improve tracking and reporting of foreign assistance data through the Foreign Assistance Data Review (FADR). The FADR requires tracking of foreign assistance activity data from budgeting, planning, and allocation through obligation and disbursement. Successful applicants will be required to report and draw down federal funding based on the appropriate FADR Data Elements, indicated within their award documentation. In cases of more than one FADR Data Element, typically program or sector and/or regions or country, the successful applicant will be required to maintain separate accounting records.

However, applicants are advised that DOS cannot guarantee that such information will not be disclosed, including pursuant to the Freedom of Information Act (FOIA) or other similar statutes.

H.7. Mandatory disclosures (2 CFR 200.113)

Non-federal entity, applicant or applicant for a federal award must disclose, in a timely manner, in writing to the federal awarding agency or pass-through entity all violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Non-federal entities that have received a Federal award including the term and condition outlined in Appendix XII of the 2 CFR 200—Award Terms and Conditions for Recipient Integrity and Performance Matters -- are required to report certain civil, criminal, or administrative proceedings to www.sam.gov . Failure to make required disclosures can result in any of the remedies described in §200.338 Remedies for Noncompliance, including suspension or debarment.

Guidelines for Budget Justification

Personnel and Fringe Benefits: Describe the wages, salaries, and benefits of temporary or permanent staff who will be working directly for the applicant on the program, and the percentage of their time that will be spent on the program.

Travel: Estimate the costs of travel and per diem for this program, for program staff, consultants or speakers, and participants/beneficiaries. If the program involves international travel, include a brief statement of justification for that travel.

Equipment: Describe any machinery, furniture, or other personal property that is required for the program, which has a useful life of more than one year (or a life longer than the duration of the program), and costs at least \$5,000 per unit.

Supplies: List and describe all the items and materials, including any computer devices, that are needed for the program. If an item costs more than \$5,000 per unit, then put it in the budget under Equipment.

Contractual: Describe goods and services that the applicant plans to acquire through a contract with a vendor. Also describe any sub-awards to non-profit partners that will help carry out the program activities.

Other Direct Costs: Describe other costs directly associated with the program, which do not fit in the other categories. For example, shipping costs for materials and equipment or applicable taxes. All “Other” or “Miscellaneous” expenses must be itemized and explained.

Indirect Costs: These are costs that cannot be linked directly to the program activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 10% of the modified total direct costs as defined in 2 CFR 200.68.

“Cost Sharing” refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

Alcoholic Beverages: Please note that award funds cannot be used for alcoholic beverages.
